

Equip.
Innovate.
Conquer.

CONQUERLY

Anish Krishnan Ganesh

FOUNDER & CEO

Hi Everyone, I am Anish

I'm a 16-year-old 11th grader with a love for all things AI. Currently, I am working on a research paper on Artificial Intelligence under the guidance of Harvard University and New York University mentors. Some of my keystone achievements are, I was the World Topper in IGCSE Mathematics, Grand Award Winner at IRIS National Fair 2021 and will be representing India at ISEF 2021 and have received a Diploma from Royal Swedish Academy of Engineering Sciences for my innovative solution.

I have worked as a Data Science Intern for 2+ years and have extensive experience working with Machine Learning, Deep Learning and AI technologies. I have developed many AI products in solving multiple real-world problems that have applications in the fields of healthcare, education, music, finance, and reducing waste. My goal is to educate the world on the unlimited possibilities of AI and make a positive impact on society through Conquerly.

Our Values

Accessibility and Equity

- Conquerly, a platform that provides everyone an equal opportunity.
- We will help you Equip, Innovate, and Conquer.

Inspire Innovation

- Through innovations, we create a positive change in society.
- Make the world better for all of us through technology and innovation.

Education For All

- We believe that this knowledge should be available to anyone.
- Free product design, courses, and workshops.

Unlock Your Potential

- Workshops conducted by some of the smartest minds in AI.
- New perspectives, ideas, and invoke a burning curiosity to explore.

What We Do

Workshops

We will be hosting several workshops virtually so all can attend from anywhere. Conducted by the brightest young minds, Industry leaders, and some of the smartest people on the planet.

Courses

We are excited to offer you four in-depth courses that will help you start your AI journey. Our team has put together a curriculum that will help you build a firm base that you require to innovate.

Research

We do extensive research on the latest technologies and continue to push the limits of our imagination. We make sure that we are well-informed and educated about the latest trends in technology.

Hackathon

We host several Hackathons with exciting prizes. Students can team up with other students and work together on a collaborative programming project.

Product Design

Our team of experts has developed innovative AI solutions that stem from deep research. We have been making a positive impact on the world through technology.

Workshops

Artificial Intelligence

Fundamentals of AI, Deep learning concepts, and Conversational AI.

Programming Languages

Oops in Java, Introduction to Python, and Intermediate Python.

Mathematics

Cracking IGCSE Mathematics, Common statistical techniques for data science.

SQL Server

3 levels of SQL server: Beginner, Intermediate, and Advanced.

Leadership skills and Public Speaking

Improve your debating skills, Brainstorming Hackathon project ideas, and Learn how to be a leader.

Courses

Mathematics

An essential step in innovating and creating new possibilities through AI, is to understand the math behind the model. We will help you understand.

SQL Server

An important step in building an AI solution is building a good database. Using SQL you can create, manipulate, and manage databases.

Python

Python is easy to learn, scalable, has a lot of AI libraries, has a strong community, and is the perfect programming language to create innovative solutions.

Machine Learning

Our courses on machine learning will help you grasp the fundamental concepts required for creating a fully-functioning AI solution.

Deep Learning

Our courses on deep learning will teach you how to build artificial neural networks capable of functioning and making decisions completely autonomously.

Product Design

Conquerly thrives in innovative product design and development. Our team of experts has developed innovative AI solutions that stem from deep research and are making a positive impact on the world through technology.

"Our products have solved multiple real-world problems in different domains"

Education

Healthcare

AI

Music

360° Benefits

Succeed

Using the knowledge and experience gained from the workshop, students will feel they are ready to succeed.

Innovate

With Conquerly, students can learn the tools and techniques required to imagine the unimaginable future.

Deliver Results

Our courses and workshops are designed so that students will easily develop skills required to change the world through technology.

Skill-up

Students will learn about the future of the world and learn the skills needed to thrive in the future.

Discover your path

Many students do not have the opportunity to learn about the possibilities of AI. Conquerly gives them one.
